

UPDATE: BLAST OFF TO THE SCIENCECENTER

DIANE FRANCO

Hello. Wanted to give you an update on the seats for this trip.

If anybody is interested in taking this tour to the Space Shuttle Endeavour, please send an email no later than January 28, 2013.

The seats that are being reserved for us can only be held until then.

Orange Belt Adventures has a tour to the California Science Center where Shuttle Endeavour is on display.

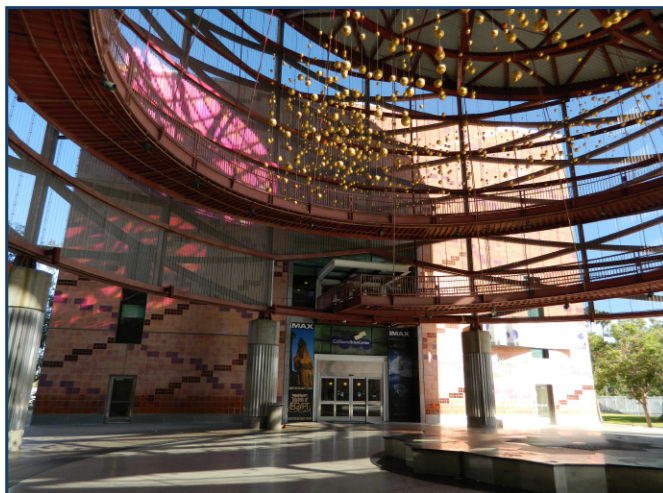

SPACE SHUTTLE ENDEAVOUR - now at home at the California Science Center in Exposition Park, Los Angeles. Named by students across the nation after a ship chartered to traverse the South Pacific in 1768. Endeavour was the last space shuttle built and had been on 25 flight missions.

Orange Belt Adventures will enhance your visit by seeing HUBBLE 3D on the seven- story IMAX screen.

Experience the gripping story -- full of hope, crushing disappointment, dazzling ingenuity, bravery, and triumph.

**Tour Includes:**

- o R/T transportation
- o Timed shuttle viewing entrance
- o IMAX theatre presentation

IMAX Theater @ The California Science Center

"BLAST OFF to the ScienceCenter"

Date: **03/02/2013**

Time: **8:00 AM to 5:30 PM**

Price: \$65 per Adult, \$55 Under 16

Diane Franco (KAS VP) is going and has reserved 4 seats if anybody wishes.
